**CHANGING THE LIGHT**

*If you need more or less light at the PhotoBooth, you can adjust the led lights inside the PhotoBooth. **Always contact support first before adjusting the light!***

1: open the backdoor of the PhotoBooth

2: inside are 2 led panels. Turn the button to adjust the light

- Turn right        > more light
- Turn left          > less light

**Make sure both lights are set at the same % of light!**
