

STORING THE BACKDROP FRAME

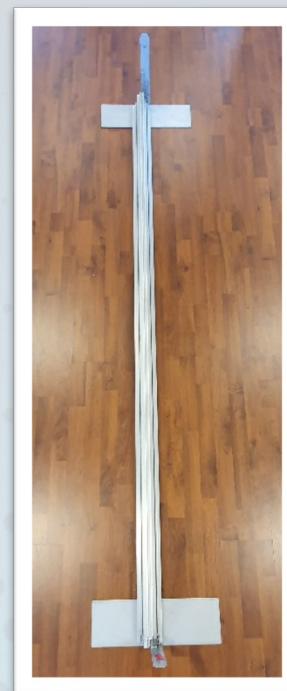

NOTE: if you have the space to store the frame in one piece, it is the best (and quickest) option to store it in one piece.

1: Pull the backdrop out at the corner

2: take out the screws at the side (4 screws)

3: store the frame

4: fold the backdrops

- Keep the frame, backdrops, screws and tool together.
- Keep the backdrops in a dry place
